PREFACE

Scope

The Principle objective of the *Kenya National Bibliography (KNB)* is to accurately record comprehensive the bibliography data of all the books, research reports, conference proceedings, pamphlets, maps, current serial tides (including annual reports, year books, biennials, etc.) on first appearance and subsequent name/title changes, selected audio-visual and other non-print materials, etc., published in Kenya. Foreign publications of relevance to Kenya, by subject or otherwise, and foreign works by Kenya nationals are also included. Asterisks (*) appear against all foreign imprint materials in the main Classified Subject Sequence. Brochures, routine government publications (parliamentary bills, amendments of bills, parliamentary debates, individual acts, etc.), programmes, advertising matter/trade literature, and other ephemeral are excluded.

Publications produced locally by international intergovernmental and private organisations (United Nations Environment Programme, International Livestock Research Institute, United Nations Centre for Human Settlements, etc.) based in Kenya are not included in the KNB, except for materials by these agencies with significant Kenyan subject contents. However, all publications with Kenyan imprint emanating from regional organisations (African Development Bank, East African Wildlife Society, African Medical Research Foundation etc.) based in Kenya are included in the Bibliography.

The 1980 annual marks the beginning of the current KNB. Works published prior to 1980 and before constitute materials for the retrospective KNB. The KNB basically lists Kenya's imprint and foreign "Kenyana" materials produced in any one year. Publications missed in either the current or the retrospective KNB are recorded in the subsequent edition/cumulating.

Only new serial titles and name/title changes or current periodicals are included in the KNB. *Kenya Periodicals Directory (KPD)*, a sister publication of KNB lists titles of current serials and periodicals in two separate classified subject sequences.

Bibliographic data used in the compilation of the KNB is based on the legal deposit publications received at the Kenyan National Library Service under the books and Newspapers Act-Miscellaneous Amendments No. 22 of 1987. Government publications and other items acquired through purchase, exchange or as donations/gifts for the Kenya collection (Kenyana) of the Kenya National Library Service, also supplement the legal deposit materials in the compilation of the KNB.

The National Reference & Bibliographic Department also plans to issue a number of other bibliographies to compliment the coverage of the *Kenya National Bibliography*.

Frequency

The current KNB is an annual publication.

Arrangement

The bibliography consists of the Classified Subject Sequence of main entries, and an alphabetical Author & Title Index which provides multiple access points to the main entries via title, as well as names of personal and corporate authors, joint authors, translators, editors, compilers, and illustrators. Series are also listed in the alphabetical index. There is no alphabetical subject index. Subject access is via the summary of the *Dewey Decimal Classification*, 21st ed. (the 100 divisions) given in the preliminaries of the KNB.

The number in square brackets at the bottom right hand corner of the entry in the main Classified Subject Sequence (e.g. [KE80-142]) is the publication's serial number in the KNB. This is the Kenya National
CATALOGUING PRACTICES

Entries in the main classified Subject Sequence are catalogued according to the requirements of the Anglo-American Cataloguing Rules, 2nd ed. 1998. The descriptive format follows the International Standard Bibliographic Description (ISBD).

Classification scheme

The KNB main Classified Subject Sequence entries are arranged according to the Dewey Decimal Classification (DDC), 21st edition. Parts of DDC literature number (Class 800) are slightly modified in order to accommodate fiction in indigenous languages. Extensions in the form of abbreviated names of local languages appear in the DDC notations. For example, 896.3923 Kis means fiction in Kiswahili.

The abbreviations used are:
